

Brand identity

All variants of the Sella mark, wordmark, and lockup. Colors and font specifications below.

01 · PRIMARY LOCKUP

Mark + wordmark

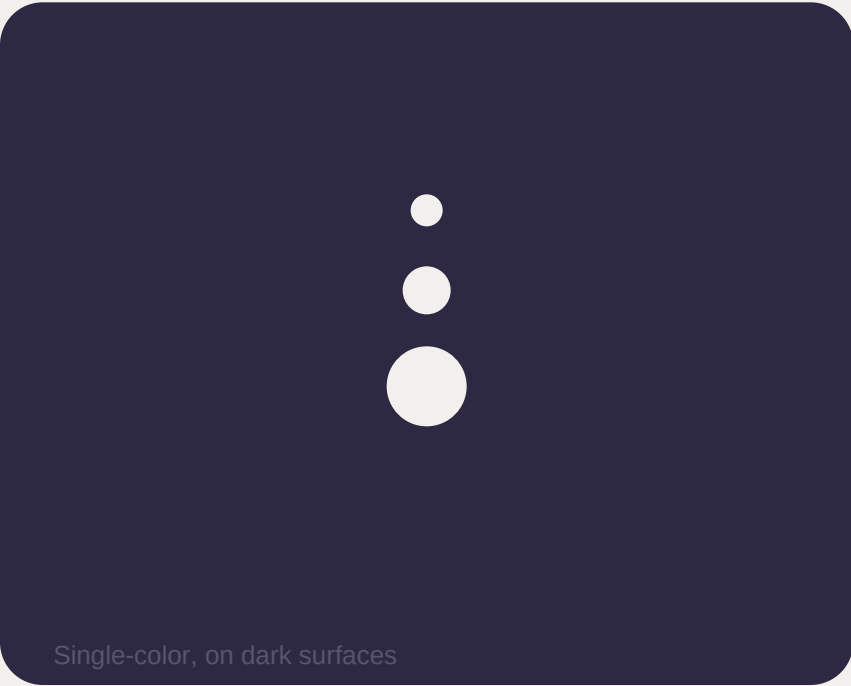

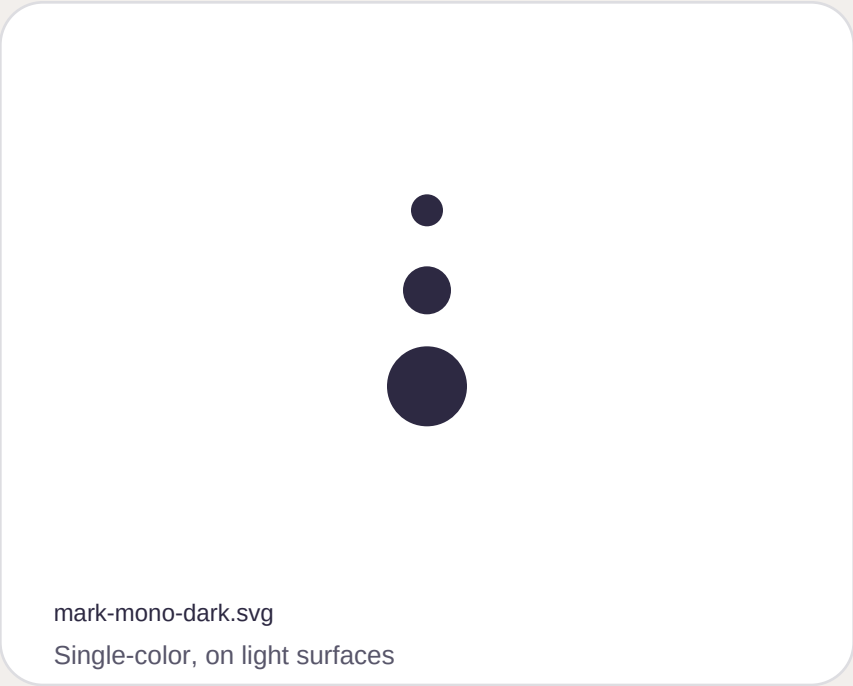

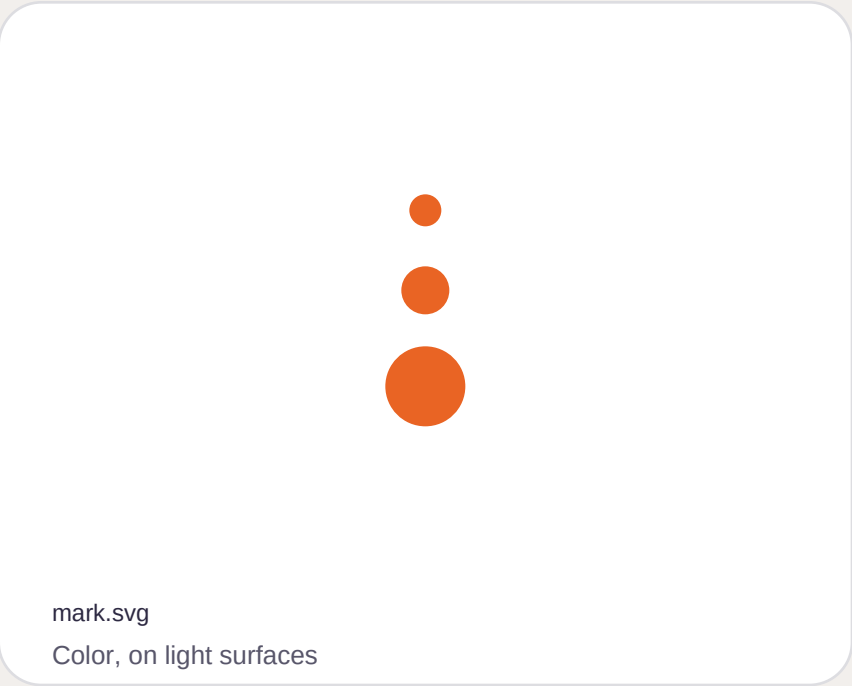

The default mark for any application that has horizontal room. Bottom dot baseline-aligns to the wordmark.

02 · MARK

Three colorways

Use the standalone mark when there isn't room for the full lockup, or as an avatar / app icon. Each variant ships in /logo as a separate SVG.

03 · COLOR

Brand palette

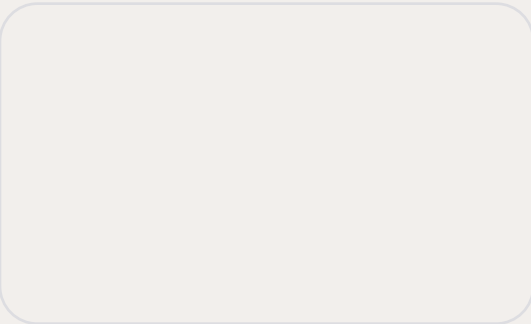

Orange is the brand. Cool ink is the body. Warm canvas is the surface. Don't introduce new hues without a brand-system conversation.

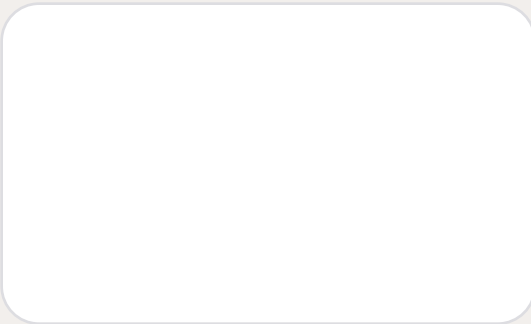

Brand orange
#E96424
RGB 233 100 36

Cool ink (text)
#2D2942
RGB 45 41 66

Warm canvas (bg)
#F2EFEC
RGB 242 239 236

Surface white
#FFFFFF
For cards, sheets

04 · TYPE

Inter

Wordmark uses Inter weight 600 (SemiBold), letter-spacing -.036em.

USAGE NOTES

- Clear-space: 1× bottom-dot diameter on every side
- Minimum mark size: 16px tall (use favicon.svg below 32px)
- Don't recolor the mark outside the brand palette
- Don't outline, drop-shadow, or distort the dots
- Don't separate the dots — they read as one mark
